Query-ready datasets	Smart research companion	with 500+ researchers	Connect to any AI platform

Why Choose mimilabs?

Instant — Query immediately without data preparation

Smart — AI assistant guides your analysis

Connected — Community + Model Context Protocol (MCP) integrations

Comprehensive — 50+ federal and state government sources

Sample Query

```
-- Query mimilabs data lakehouse for HCC reference data
SELECT
  diagnosis_code,
  cc,
  model_name
FROM mimi_ws_1.cmspayment.ra_dx_to_cc_mapping
WHERE model_type = 'Initial'
  AND year = 2026
  AND model_name = 'CMS-HCC Model V28'
ORDER BY diagnosis_code
LIMIT 10;
```

Key Applications

Strategic Planning: Clinic locations, market analysis, competitive benchmarking

Price Negotiation: Leverage Payer MRF data for contract negotiations and rate benchmarking

Risk Adjustment: HCC coding analysis and Medicare Advantage optimization

Population Health: Health equity research, community assessments, policy impact

Get Started in Minutes

Join our Slack community, explore datasets in Databricks, and collaborate with mimibot and 500+ fellow researchers. Documentation makes onboarding seamless. https://mimilabs.ai/signup

Let's Work Together

Trusted by 500+ researchers from start-ups to Fortune 500. Our mission is accelerating insights that positively impact healthcare through beautiful small solutions.

Available Data: CMS • CDC • FDA • EPA • AHRQ • IRS • Private Payers • State Governments • 50+ additional sources
